REGULATIONS

§ 333.1 Classification of general character of business.

State nonmember insured banks are divided into five categories for the purpose of classifying their general character or type of business,² viz: commercial banks, banks and trust companies, savings banks (including mutual and stock), industrial banks, and cash depositories.

[15 FR 8644, Dec. 6, 1950]

§ 333.2 Change in general character of business.

No State nonmember insured bank (except a District bank) or branch thereof shall hereafter cause or permit any change to be made in the general character or type of business exercised by it after the effective date of this part without the prior written consent of the Corporation.

[15 FR 8644, Dec. 6, 1950]

§ 333.4 Conversions from mutual to stock form.

(a) *Scope.* This section applies to the conversion of insured mutual state savings banks to the stock form of ownership. It supplements the procedural and other requirements for such conversions in § 303.15 of this chapter. This section also applies, to the extent appropriate, to the reorganization of insured mutual state savings banks to the mutual holding company form of ownership. As determined by the Board of Directors of the FDIC on a case-by-case basis, the requirements of paragraphs (d), (e), and (f) of this section do not apply to mutual-to-stock conversions of insured mutual state savings banks whose capital category under § 325.103 of this chapter is "undercapitalized", "significantly undercapitalized" or "critically undercapitalized". As provided in § 303.162 of this chapter, the Board of Directors of the FDIC may grant a waiver in writing from any requirement of this section for good cause shown.

² A bank's business may include two or more of the general classifications.
